Add Raman to your lab!

Easy to use...

"The DeltaNu Advantage 633 has proven to be an extremely useful tool for qualitative analysis in my instructional and research laboratories. We have used it to identify both inorganic salts and organic compounds. Students readily learn how to operate the instrument and several samples can be analyzed in a short time period. The online laboratory procedures that DeltaNu provides are a very helpful resource and have assisted the incorporation of Raman spectroscopy into our program. I am very pleased with the performance of the Advantage 633 and continually look to further its role in our laboratories.

– Richard Martoglio
 DePauw University

Advantage 633™ Raman System

Delta Nu announces the Advantage 633 Raman system. It's perfect for academic settings and comes complete with:

- compact, sensitive and versatile Raman spectrometer
 - computer with flat panel LCD monitor
 - easy to use software
 - complete package of accessories
- and best of all ... prepared labs!*

Easily demonstrate topics in analytical, physical, inorganic and organic chemistry. Choose from pre-tested experiments, each with instructor and student versions. Examples include:

- group theory and vibrational spectroscopy
- periodic trends using Raman spectroscopy
- adsorption isotherms using SERS
- instrumental analysis: ethanol & water

University CSI...

Forensic science offers a real hands on experience for students. With our Inspector Raman forensic analyzer you can start your students analyzing crime scenes and learning about chemical analysis. What once was an unexciting lab of mixture analyses becomes a solution to a crime. Our Inspector Raman is a fully functional hand-held Raman system. It can be used for any chemistry class. Visit our website at www.deltanu.com/ir.htm.
